

Electronic Funds Transfer — EFT

For your convenience — For your security — For your financial benefit

What Is EFT? *It's direct deposit*, an automatic transfer of money direct to your checking or savings account every time a payment is due from Energy Transfer Crude Marketing, LLC. **Your check stub detail is mailed to you — just the same as it is now.** All you have to do is complete the form on the reverse side and return to the EFT Coordinator at the indicated fax number or address.

Why Use Direct Deposit?

EFT is:

Dependable Efficient <i>transfers the money</i>	Dependable Efficient Convenient Better Cash Management Safe Easier to Reconcile	<i>No problems with the mail</i> <i>Money is available at your bank the same day Energy Transfer Crude Marketing, LLC</i> No trip to the bank to deposit your check <i>Deposits start working for you even if you are out of town</i> <i>No checks to be lost or stolen</i> <i>Most bank statements show the name of the payor</i>
---	--	---

EFT — simply the best way to receive your money from Energy Transfer Crude Marketing, LLC.

- Checking or savings account accepted for EFT.
- The routing number must be nine digits. If the first two digits are not 01 through 12 or 21 through 32, the direct deposit will be rejected, and a check sent instead. On the sample check on this page, the routing number is 010000099.
- Your check may state that it is payable through a bank different from the financial institution at which you have your checking account. If so, do not use the routing number on that check. Instead, contact your financial institution for the correct routing number.
- The account number can be up to 17 characters (both numbers and letters). Include hyphens but omit spaces and special symbols. On the sample check on this page, the account number is 99999989.
