NATIONWIDE CONNECTIVITY

Energy Transfer LP (NYSE: ET) is a publicly traded, investment-grade limited partnership with a fully-integrated portfolio that enhances its ability to offer a wide range of services to both domestic and international markets. It owns and operates more than 130,000 miles of pipeline and associated infrastructure in 44 states, with a strategic footprint in all of the major U.S. production basins.

Mont Belvieu Fractionators

Nederland Terminal

A DIVERSIFIED PORTFOLIO

Energy Transfer owns and operates one of the largest and most diversified portfolios of energy assets in the United States. Its core operations include complementary natural gas midstream, intrastate and interstate transportation and storage assets; crude oil, NGL and refined product transportation and terminalling assets and NGL fractionation.

Energy Transfer also owns the general partner interest, the incentive distribution rights and approximately 21% of the outstanding common units of Sunoco LP (NYSE: SUN), and the general partner interests with approximately 39% of the outstanding common units of USA Compression Partners, LP (NYSE: USAC).

A HISTORY OF GROWTH

Formed in 1996 as a small intrastate natural gas pipeline operator, the partnership has successfully grown through organic expansion projects and the acquisition of ~30 companies.

135,000+ miles of pipeline

Assets in **44** states servicing all major producing basins

Transport approximately **30%** of U.S. natural gas

NGL exports make up approximately **20%** of world market

HIGH QUALITY EARNINGS FY

FY 2024 Adjusted EBITDA by Segment

“ We’re very proud of our fully integrated business model that offers **wellhead to water accessibility** and a wide range of services to both domestic and international markets. ”

—Mackie McCrea, co-CEO

STABLE CASH FLOWS

2025E Adjusted EBITDA Breakout

- 1) Fee margins include transport and storage fees from affiliate customers at market rates
2) Spread margin is pipeline basis, cross commodity and time spreads

Predominantly fee-based contracts with low commodity price sensitivity

KEY ASSET STATS*
