

ENERGY TRANSFER Stats and Facts Sept 2025

Energy Transfer is one of the largest midstream energy companies in North America. We safely and efficiently transport natural gas, natural gas liquids, refined products and crude oil. Our U.S. footprint spans 44 states with 140,000 miles of pipeline and associated facilities, with major import/export terminals on the East and Gulf Coasts.

Internationally, our Latin America Regional Headquarters is strategically located in Panama City, Panama, and our business development office for the Asia-Pacific region is located in Beijing.

Here is a quick look at some of our most interesting stats and facts.

5x

140,000 miles of underground pipelines that could circle the Earth more than five times.

No other U.S. company has built more large diameter pipelines over the past 20 years.

53rd FORTUNE 500 LIST

Ranked 53rd on the 2025 Fortune 500 list of the largest U.S. companies by revenue.

Ranked 6th on Fortune's Energy Sector list for revenue, innovation, management, long-term investment value and more.

$15.5B

Achieved partnership record $15.5 billion of adjusted EBITDA in 2024.

Up 13% over 2023.*

One of America's most comprehensive energy infrastructure portfolios.

Operations include the transportation, terminalling and storage of natural gas, natural gas liquids, refined products and crude oil.

Interesting facts: we are the largest pipeline operator in Texas and Oklahoma and supply more than 60% of the natural gas used in Florida.

20% NGLs

Largest NGL exporter in the world. Our business represents 20% of all NGL exports worldwide.

NGLs include ethane, propane and butane, which are crucial for making computers, medical equipment, automobile parts, food packaging and renewable energy components.

30%

Transport approximately 30% of U.S. natural gas.

Enough to power more than 115 million homes annually.

Interesting fact: we serve ~185 natural gas-fired power plants in 15 states.

12M

Transport enough gasoline to fill more than 12 million cars per day.

Interesting fact: this is also equal to fueling more than 10 thousand three-hour flights on a Boeing 737 MAX.

*Reconciliations of non-GAAP measures to the comparable GAAP measure can be found at energytransfer.com

More than 12,000 employees strong.

#44 on Forbes' Best Employers for New Grads 2025.

$680M

More than $680 million in property taxes paid in 2024 across 40 states support local schools, parks, hospitals and more.

$6.2M

More than $6.2 million since 2018 to conservation organizations for wetland restoration, tree plantings, endangered wildlife and others.

Arbor Day Foundation, Ducks Unlimited, National Fish & Wildlife Foundation, National Wild Turkey Federation, Wildlife Habitat Council, Texas Trees Foundation, Loyalhanna Lake Cleanup, Keep Louisiana Beautiful, Trees for Houston and more.

821,903 tons of CO_2 saved in 2024 through our patented Dual Drive Technology and carbon capture sequestration programs.

Three world-class export terminals.

The only energy company with export facilities on both the U.S. Gulf Coast and the Eastern Seaboard.

Interesting fact: our exports reach 80 countries and territories.

Nederland Terminal
Petroleum and NGLs

The largest single-owner above-ground storage facility in the U.S.

Marcus Hook Terminal
NGLs

First export of refrigerated ethane from the U.S. left our Marcus Hook Terminal in Pennsylvania in 2016.

Houston Terminal
Crude Oil

Located at the widest point of the Houston Ship Channel, one of the world's largest trading centers for fuel oil and crude oil.

$48M+

DONATED SINCE 2018
